

Assembly instructions

RO023 RO024 RO025 RollUp Banner Luxury

The contents of the package:

Textile carry bag: 1 piece

RollUp Banner system/box: 1 piece

Three-section pole: 2 pieces.

1. Place the RollUp on the floor and take out the three-section poles from their cover. Unfold the poles and connect them together to form two long poles, as shown in the picture.

2. Insert the poles vertically into the slots located on the back side of the box, as shown in the picture. The poles must go through the box slots all the way to the base. Inserted correctly, the poles will self-sustain and thus the Rollup will not swing. Please make sure that the poles were inserted to the end.

3. Gently pull out the graphic from the box with your foot stepped on the Rollup box and one hand holding the metal wand.

4-5. Pulling straight the graphic, place the plastic ends of the three-section poles into the Rollup's metal wand. For easier fixing, tilt the metal wand 45 degrees, as shown in the picture.

6. If necessary, you can adjust the inclination of the RollUp by rotating the two support legs at the front of the box.

To move the RollUp Banner is recommended to hold it from the three-section poles from the back.

The pictures are for presentation only; your product can be slightly different!
